Relational Learning: **Discipleship as a Gathered Community**

Date:/Time *Mondays May 4th—June 8th*
Time: *6:00pm—8:00pm*
Facilitator: *Pastor Scotty Robertson (DMin student)*
Location: *ONLINE*

Description:

The purpose of this module is to learn how the early church did discipleship in the context of who they were as a gathered people by passing from one house, one family, and one generation to the next. This was actually the only way they knew how to do discipleship. Then we will examine how today's church needs to get back to this early way of discipleship, especially in our Post-Christian society where we live and do discipleship.
